

Recommendation for transfer to nominal registration

There is a set period in which the student has to be in normal registration before transferring to nominal registration, depending on degree and study mode.

Degree	Minimum period of candidature
MPhil (FT)	12 months
MPhil (PT)	24 months
PhD (FT)	24 months
PhD (PT)	36 months
DM (PT)	24 months

Current University regulations state that the transfer of research students to nominal registration will be governed by the following general principles:

- that recommendations for transfer to the nominal roll should be subject to the approval of the School Board
- that transfer to the nominal roll should only be approved when the Board concerned is satisfied that no further supervision is required
- that time spent in nominal registration will count towards the total period of candidature
- that if, after 12 months' nominal registration no thesis has been submitted, a candidate wishing to continue in candidature should be required to seek approval of the School Board.

Name of Student

FERNANDO SANTOS SANCHEZ

Division

FoM / ECS

Degree

iPhD in Web Science

Date candidature commenced

24/09/2015

Date of transfer to nominal

23-9-19

Estimated date of thesis submission

20/03/2020

The supervisor must tick each box below to confirm that:

- ☒ the student has already been upgraded to PhD status (*if appropriate*)
- ☒ the student has completed all experimental work and data-collection
- ☒ no further supervision of the research is required
- ☒ the structure of the thesis has been agreed
- ☒ a significant part of the thesis has already been seen in draft form by the supervisor
- ☒ a likely completion date has been discussed with the candidate.
